Trinity Versa

Direct / Indirect recessed modular

UGR19 | Ultra efficient | Wattage switchable

Trinity Versa

Direct/Indirect UGR 19 recessed modular

Product code	TRI66N40	TRI66X40	TRI66X40
Product type	On-Off	Driverless	Driverless
Lumens (switchable)	1900 - 3700lm	1900 - 3900lm	1900 - 3900lm
Driver	Driver included with wattage output switch	TRIDALIDRV (sold separately)	TRISDIMDRV (sold separately)

Wattage switchable

Trinity provides 5 lumen output options within the same SKU so whether you are lighting an office or a corridor, the same product can be used throughout your project.

Product	Lumen switchable output
TRI66N40	1900 - 2500 - 2800 - 3100 - 3700lm
TRI66X40	1900 - 2500 - 2800 - 3100 - 3900lm

Product	Wattage switchable output
TRI66N40	13 - 16 - 18 - 20 - 26W
TRI66X40	13 - 16 - 18 - 20 - 26W

Quality of light

Efficiency combined with visual comfort ensures a high performance light for your workers, students and retail applications. Direct/Indirect design provides a soft low glare lit effect.

UGR19 **UGR19 compliant low glare**

156lm/W **Ultra-efficient up to 156 lumens**

Dimming options

DALI-2 and Push-Dim dimming options.

Sensors, Drivers & Emergency

Product Code	
TRIONOFFPIR	On/Off PIR sensor (adjustable time delay, sensitivity, daylight switching)
TRISDIMPIR	Step-dim PIR sensor (10%-30% when absence is detected, adjustable time delay, sensitivity, daylight switching)
TRISDIMDRV	Step-dim plug-in driver (using PWM output)
TRIREMOTE	Remote controller (for use with **TRIONOFFPIR** & **TRISDIMPIR**) (Requires 2 x AAA batteries, not included)
TRIDALIPIR	DALI-2 PIR sensor (head-end control required)
TRIDALIDRV	DALI-2/PUSH-DIM/0-10V plug-in driver
TRIKITPULL	Pull-up mounting kit for concealed ceiling grids
LEDEP09DA	Emergency pack for converting panel into DALI emergency self-test option
LEDEP10	Emergency pack for converting panels into emergency self-test & manual test switchable option
LEDEP10EM	Emergency pack for converting panels into emergency manual-test option

PIR Sensors

With our PIR sensors, you have the flexibility to choose which sensor your require for your project. On/Off, DALI-2, Step-Dim sensor options.

Warranty

50,000 hours, L70 lifetime for piece of mind.

5 **5 year guarantee**

2 **2 year on-site warranty**
